Major Garfield Ladrner stated that from a purely selfish point of view it is to every Waveland resident's benefit to vote yes to the upcoming county bond issue Saturday, August 22.

Why vote the Sewerage system in? Of all the reasons for it, the best one for it is if the citizens don't, it's the town's dead. That sound a little drastic? Consider the facts.

A sewerage system in Waveland is no longer a matter of choice or a luxury. It is vitally necessary to the health of the residents as well as the town's economic growth stated Ladrner.

A third generation resident of Waveland triumphantly said, "My father and grandfather before me had septic tanks and it didn't hurt them

Why do I need a sewerage system?"

Because in 1930 there were 663 people in all of Waveland. The present population of Waveland is 2,808 and it can grow rapidly, given a chance. Many people make nice wads of cash every year. Open drain ditches all over town now pour raw sewage into the Gulf waters, or stand in stagnant pools.

Right now the water in the Gulf is polluted. It's unsafe for swimming and pollution affects the fish, crabs and clams that we catch and eat. Vacationers don't want to visit a place that's polluted, and that's why people who come to Waveland for other places to spend their vacation dollars.

Our young people finish school and leave town to find jobs, because there isn't much industry in Waveland to provide

Citizens of Bay St. Louis are requested by the Department of Sanitation to place all garbage to be collected at a convenient spot near the street and in front of their respective residences not later than 7:00 a.m. on the pick-up days. Garbage is collected in some sections on Mondays and Fridays, and in other sections on Tuesdays and Saturdays.

Remots are there have been calls from citizens saying the garbage was not collected, however, the workmen say the cans were placed late in the day and that collections had already been made in these instances.

Because of the work loads of the collectors and the expense involved there is a hard fast rule of "No Call Backs" and those who do not have the garbage out by the time trucks pass will have to wait.

The newly organized Hancock County Rescue Unit sent a truck and trailer "Mercy Mission" load to the Corpus Christi hurricane Cella victims and prepares to load further assistance to citizens of this crippled and stunned city, reported by their Mayor Blackman to be heavily damaged and without gas or electricity.

Members of the Rescue Unit are headed by Elvita Walters who together with George W. Stuchey and Terry Holmes are reported to be on the scene and working closely with Corpus Christi's Civil Defense leader, Filcher.

Those wishing to make their contributions may do so through the office of the Civil Defense, the Board of Supervisors, or the Hancock County Rescue Unit, Inc.

William K. Burke, newly appointed County Engineer, signed a contract covering plans to be made from State Aid Funds for engineering services and Russell Elliott, President of the Hancock County Board of Supervisors was authorized on Monday to sign the contract.

At a meeting it was decided by the Board of Supervisors that County Engineer Burke would furnish his own offices and provide for his office staff in Bay St. Louis.

Payments for work will be provided from the State Aid Funds and the total estimated project costs will be exceeded by the amount of the second payment according to the terms of the contract. The State Program is under the jurisdiction of the Bureau of Public Roads.

Telephone communications between local civil leaders and the Federal Board of Supervisors president, Russell Elliott and the Corpus Christi mayor Blackman have assured the victims of the storm that special supplies of diet foods, infant's and sickroom supplies will be provided as well as collections of money and foodstuff to be used in lessening the discomforts of some stricken populace. Of some 335,000 people the majority, estimated to run as high as 85 per cent, being affected.

Elliot said: "The people of Hancock County have acted with great generosity and heart-felt sympathy. Many donors really haven't sufficiently recovered from Hurricane Camille to make a response, but they give with open-handed generosity. They are to commend."

In making up the truck and trailer load of supplies care was taken to include items which were in short supply in Bay County. Hurricane

#### Heavy Rains Cause Damage

Torrential rains fell Tuesday afternoon in Bay St. Louis beginning at approximately 2:45 p.m. In less than an hour sufficient water had fallen to cause ditches to over flow in some instances water accumulated on streets and to a depth of several inches. Reportedly at least six automobiles were stalled in the English Acre section and more especially where very deep water blocked off traffic on English Acre Drive.

Aftermath of the rain found Main Street once again filled with deep pot holes of a serious nature and a hazard to drivers. There have reportedly been a few instances of cars being damaged when hitting these pot holes. The City of Bay St. Louis had a crew doing temporary repairs in the Main Street and other areas, however, the intensity of the rain washed out all of this clay-type fill. Mayor Warren J. Turner said he was unable to estimate the possible costs to the city to pay the rainfall would

make in way of repairs to streets and opening of clogged drain ditches.

## Waveland CAP Figures Released

"I would like to sincerely thank you and all the folks in the rehabilitation program who have helped to make my life a healthier, better, and happier place in which to live." This quote is from a letter Mrs. Irma C. Mocklin to J. Hughes, administrator of Waveland Certified Area program, one of the four HUD approved programs now in operation on the Mississippi Coast. Mrs. Mocklin's home was one of 55 Waveland homes approved for rehabilitation work under the CAP program, and her statement is revealing description of the work being accomplished.

Shortly after Camille struck last year, it was estimated that 750 Waveland homes were in need of rehabilitation to bring them up to adopted code standards. The ravages of Camille, as well as a low socio-economic condition, left the majority of Waveland home owners unable to cope with the problems of rehabilitation. In December 1969 the establishment of two CAP programs - Interim Assistance and Certified Area - answered the need for community grading and residential rehabilitation. The aim of the CAP program is to reach as many of 750 homes as possible. Waveland Operation Upturn opened its doors March 17 to give applications for assistance. In the intervening four and a half months, Waveland CAP has allocated a total of \$9,077.70 to rehabilitate 57 homes. To date, work has been completed on 30 of these homes and 25 are still under construction. Of 300 home owners who have registered in the Upturn office, two-thirds have been found eligible for assistance. An additional 205 applications are being processed. The remaining one-third were either residents of Waveland (a primary requirement) or had their homes entirely, unfortunately leaving them nothing to rehabilitate.

Almost the only requirement for CAP loans is that the applicant be a Waveland resident. The purpose of the program is to bring every home in town up to housing code standards for life, sanitary living and to grade the community. A home owner with an annual income of \$3,000, or less is eligible for a grant up to \$3,500. If his annual income exceeds \$3,000 but is less than \$4,000, he may also be eligible for a grant or loan grant combination. One of the most appealing features of the loan program is that there is no ceiling on income and no maximum age requirement for a home owner to obtain up to \$15,000, at 3% interest, to bring his home to code standards.

A great many homes in Waveland have defective wiring, inadequate plumbing, unsafe water heaters and kitchen facilities or none at all. CAP inspectors have found leaking roofs, windows without screens, rotten floors and termite infested foundations. These defects plus many more are corrected under the CAP program. Expressing satisfaction with the phase of the work done on her home, Mrs. Mocklin said in her letter, "All the people who did the work at my home did it they could to make things better for me. . . It took many years of living and the battle of destruction of a lady called Camille, who unwittingly made me realize that our country is for all a good place to live and the people do care."

## Krewe Announces Ball And Parade

Waveland's Mardi Gras organization announces the dates of their 5th Annual Carnival Ball and Mardi Gras Parade. The gala Ball will actually be their 10th as it was cancelled last year when heavy hurricane losses among the 100 lady members made it impossible to prepare the Ball and Parade. Floats were rebuilt and the Parade rolled as planned.

The Ball will be held on Jan. 30, 1971 and is by invitation only. The Parade will roll along the streets of Waveland on the afternoon of Feb. 14, 1971.

The Waveland Krewe of Neptune is the only self-supporting, non-sponsored, non-affiliated Carnival Organization of the Gulf Coast, according to Mrs. Edna Klempeter, who serves as publicity chairman for the organization.

At its headquarters in preparations for the Krewe of Neptune, Mrs. Klempeter has contracted New Orleans artist for the second year. He has designed the Ball and the 8 floats to be used by the Krewe. Mrs. Klempeter is building the floats and instructing members in the newest, best method of applying paper mache, gold leaf, etc. This year the Krewe has purchased 2 new flat beds to replace floats destroyed when hurricane winds blew the old floats last year - 4 days after their completion.

Mrs. Boston Edmonson of Bay St. Louis has contracted to make the float costumes and is already calling in the Krewe of floats for measurements, fitting, etc. The Krewe's Lieutenant will again make hats and some of the special costumes. For the 10th year Mrs. Dianne Bryant has designed the costumes and the theme - the Neptune's Doubloon. The 100 lady members of

They wore purple crepe dresses fashioned on Empire lines with long sleeves; purple braid accented the waistlines. They carried cascades of pink carnations and lavender pom poms and wore headpieces featuring purple tulle attached to a matching bow.

A. J. Chiniche, Metairie, La., carried his brother as best man and James Chiniche, another brother of Bay St. Louis, Alvin M. Ladner, Jr., brother of the bride, George Simmel, Seabrook, Texas, John Gaudin, Bay St. Louis, and Lucien Bourgeois, University, Miss., were groomsmen. Each day seems to have a shower or two but they have not really affected fishing. Bass fishing is still good and speckle trout over the past weekend was perfect with the weak fish being caught most everywhere. The speckle trout has been hitting small live croakers and others instead of live shrimp. They do that come time.

Hard crabs are plentiful and are being caught daily but soft crabs are not giving and very few are being found.

Flounders seem to be everywhere. Being caught at night and caught on hook and line. Some big ones are being caught all along out front from Cedar Point to Bayou Caddy. They are up Jordan River, on the Mud Flat, from Bayou Caddy down to Red Fish Bayou in Herron Bay.

Mr. and Mrs. Seely and wife spent the weekend with his parents, Mr. and Mrs. Clayton Seely. Daniel is a helicopter pilot in the army. He is leaving soon for Germany where he will be stationed. Daniel showed some slides taken in Viet Nam and Cambodia to friends at Sam's Bar. He was quite a bit of fishing.

Met two good fishermen, Jimmy Adams and Joe Penson of Sildell who fish quite a bit around Pearlington. Caught about 70 speckles Sunday. Said they were striking pretty good. They usually catch fish when they go.

Won't be long before the hunting season's open in Mississippi. The first is for doves (Cont. on Page 6-B.)

**SPORTSMAN OF THE WEEK**  
JIM GEORGE loves to fish. Don't care what kind he says. Been waiting a long time to get his fill of it. Always ready to go, too.

For example, two couples Andrew Devoon, Jerry Thomas, Irene Thomas and Mary Thomas caught 42 of them down Waveland way one night last week. It was a lot of fun said the happy foursome. Jerry and Irene are the son and daughter of Teddo Thomas, one of our best local sportsmen. Their complaints it.

A group of our youngsters who catch their share of fish, flounders and soft crabs are Keith, Bart and Marie Johnson and the Frey children. They own their own boats and practically live in and on the water. They will be our future fishermen. That is for sure.

Dr. W.E. Fols and son Tim caught 52 speckles out from Kelly's camp. One weighed 5 pounds, one 3 pounds, and eight 2 pounders. They live in Collins, Mississippi. Both do a lot of dove hunting. Doc is the son-in-law of Mr. and Mrs. Eugene Davis of this city.

Mr. and Mrs. Clarence Fricke don't do much fishing or hunting. Their sport is playing checkers. Mighty good at it, too.

Jack Ford is a fisherman and hunter. He is from Jordan River Shores. He was talking up of the big ones being caught up there.

Two couples for drinking are that you had a right about drinking or because you're going to have one, when you get home.

Jim George said he is going to do a lot of fishing now. Couldn't do it when he was younger. He catches 'em now.

Mike Hays was over from Pascagoula this weekend visiting his parents. He is with the Miss. Power Co. there and loves his fishing.

Was sorry to hear of the death of Wallace Bouquais of Waveland over the weekend. A real fellow and sportsman.

Harry Romap, his step-son Louis Deel and his sons truly caught a bunch of speckles Saturday in Lake Bonnet. They were only hitting live croakers. Learned a new way to catch 'em from Harry.

When fly fishing or casting for bass it is best to wear dark clothes and stay away from them. Here are scary fish and they away from boats or objects they can see.

Alfred Maffrey had a birthday Saturday. Celebrated it Sunday by catching a new string of bass. A year older but the same old Al.

CITY OF BAY ST. LOUIS  
PUBLIC NOTICE

The following Ordinance was adopted by the Mayor and Board of Commissioners of the City of Bay St. Louis, Mississippi, at a regular public meeting on August 3, 1970:

**ORDINANCE NO. 181**

AN ORDINANCE ADOPTING THE PROVISIONS OF HOUSE BILL 943, REGULAR SESSION 1970, MISSISSIPPI LEGISLATURE, TO IMPOSE A TAX ON PERSONS OWNING OR OPERATING SLOT AMUSEMENT MACHINES; TO PROVIDE FOR COLLECTION OF THE TAX AND ISSUANCE OF THE LICENSE; TO IMPOSE PENALTIES FOR VIOLATIONS OF THE ORDINANCE AND TO PROVIDE FOR ENFORCEMENT THEREOF.

BE IT ORDAINED BY THE MAYOR AND COMMISSIONERS OF THE CITY OF BAY ST. LOUIS, MISSISSIPPI:

Nothing herein contained shall abrogate any tax or penalty that may have heretofore accrued under the provisions of the Ordinance, nor shall any claim or suit therefor be abated by this Ordinance.

**SECTION 11. Constitutionality.** If any of the provisions of this Ordinance, or the application thereof to any person or circumstance, are held to be invalid or unconstitutional, either as to any section, paragraph, sentence, or clause hereof, the remainder of this Ordinance, and the application thereof, shall not be affected thereby.

These jars have gold leaf labels and are glass stoppers and were found by young Brian Russell following Hurricane Camille. The reports are that Brian watched as heavy machinery was in action cleaning the storm torn beach from just beneath the drug store when he noticed, wedged in clay and unharmed by the tidal waves a barrel which when opened was identified as belonging to the de Montluzin Drug Store. The labels written in Latin showed the bottles once contained ancient chemical preparations and tree barks used in tea brews specific for ailments years before modern medication. Another bottle in the collection was found by a Fillmore boy who watched excavations being made at the Baptist Church a few years ago.

when an addition was being constructed. The blown-glass lettering on this bottle identifies it as having been made for the chemist, L.A. de Montluzin.

Grandfather Ludovic Adrien de Montluzin with his wife, Reine, called from France and arrived in Bay St. Louis, La. in 1854 where a school for boys was established. Later another school for boys was established in New Orleans and on Conti Street. In 1878 following a heart attack Ludovic A. de Montluzin by orders of his doctor retired in Bay St. Louis, a quiet and peaceful town. He soon recovered sufficiently to become bored with idleness and because he was a qualified chemist as well as an educator he bought a Chemist Shop on State Street, which was then known as Apothecary Street. From that beginning the first drug store on the Mississippi Gulf Coast was established. It was operated by his sons, Alfred and Rene. Roger, another son, and a graduate of Tulane University School of Medicine, practiced medicine in Baton Rouge, but upon the last year of his life in Bay St. Louis. Rene, father of the present owner of the de Montluzin Drug Store, died in 1959 with the distinction of being an honorary President of the Mississippi Pharmaceutical Association. He was the oldest practicing pharmacist within the State, a beloved citizen with a long record of service to the community. His only son, Rene Junior is a graduate of the School of Pharmacy of Loyola University. He has practiced pharmacy continually since graduation with the exception of four years spent in the armed forces during World War II. The de Montluzins have a daughter, Lorraine, the name being meaningful since Great-Grandfather de Montluzin was born in Lorraine, France which lies in the province of Lorraine.

## Welfare Staff Attended Session

Department of Public Welfare Commissioner, Arthur Winstead, announced that training sessions were held related to the new county reporting, documents control and data processing system for handling applications for welfare assistance and services. All program staff members were included in the training sessions. "Because of the increased number of applications in the last few years, it has become

necessary to implement a computerized system to handle the volume of work processed each month by the agency," he stated.

"Your patience and understanding are requested should there be a delay in the processing of applications during implementation of the new system. This system is designed to pinpoint errors and eliminate duplications that originate either on intake or at state office levels. It will enable the agency to better serve its clients," Winstead added. A study was made by outside consultants and the change is the result of their recommendations.

The first meeting was held on Monday, August 11, beginning at 9:00 a.m. and adjourned at noon August 12. The second session began at 1:00 p.m. on Wednesday, August 13, and continued through Friday, August 15. Meetings were held in the private room, Henselberg Hotel, Jackson.

These training sessions are only the first step in what must be an ongoing process. It is expected much more help on an individual basis can be given in implementation of this procedure.

Hancock County Director of Welfare Mrs. Frances Frankiewicz, Mrs. Faye Blackstock, Social Worker, Miss Dorothy Simmons, District Visitor and Mrs. Edith Chevis, Chief Clerk of the Hancock County Welfare office attended the first session while the second session was attended by Mrs. Sandra Dugan and Mrs. Charlotte Ladner, Social Worker and Family and Children's Services of the Hancock office.

## South Central Bell Restoration Report

Camille is history, but it will be remembered as the most destructive hurricane ever to hit the United States Mainland.

In the Gulf Coast District of South Central Bell, which embraces the counties of Jackson, Harrison, Hancock and South Pearl River, there were 80,000 telephones silenced, 700 long distance circuits were interrupted and 12 central offices on emergency power. However, at no time was contact lost with the Coast. By September 15, most telephones that were restorable, were back in service. In addition, a great surge of new requests for telephone service together with service changes were received and met.

To meet this mountainous restoration job and the heavy demand for new and changes in service, some 1,000 people including Bell System person-

nel and contractors handling Bell System work, assisted with this mammoth job. The 40 plane airlift of volunteer telephone men, trucks, and equipment to Mississippi was one of the largest ever undertaken by the Bell System.

The 716 tons of cable, wire, hardware and telephone sets was supplied by Western Electric from their prearranged distribution points.

Local telephone people were on the job from start to finish in spite of great personal loss by many of these dedicated people.

Expansion of the company's facilities has been in high gear since the restoration following the hurricane and in every ex-

ample of the Gulf Coast District. Expenditures for new construction thru May 1970 totaled almost 3.5 million dollars and by the end of 1970 will exceed 8 million dollars in the Gulf Coast District.

The total telephones in the Gulf Coast District numbered 117,175 as of July 31, 1969 and thru June 30, 1970 they totaled 120,317.

"This is tangible evidence of the Coast's vitality and strength not only to withstand adversity but to overcome it," said L. M. Kyle, Jr., District Manager for South Central Bell. "We are proud of the part we play in such a dynamic area," Kyle added.

Al Mercier and his fishing buddy A. K. Martinovich, Sr. have been getting their share of speckle trout. They caught some up Jourdan River over the weekend. Nice size they claimed.

Tut Monti is sponsoring a fishing trip for next Sunday on a 65 foot boat. A group of about 15 are planning to go. If you would like to make such a trip contact Tut. You'll have a good time as well as getting fish.

If you don't know, Ray Barker's Marina at Pearl River is a swell place to get a boat, motor, etc. Fishing in Pearl River for both fresh and salt water fish is top right now. See Ray. You'll be glad you did.

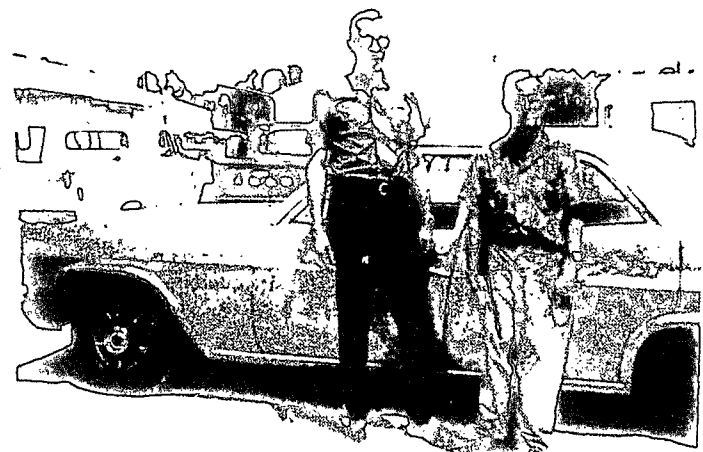

A teenager fell on the ice last year and bruised her shoulder.

A group of local Bay Scouts launched the other day from a camping trip to the Okefenokee Mountains. Everyone had a swell time the boys said. Adults in charge did a good job.

Catching hard crabs is no problem. They are being caught in most places. Even on the back and line. They are faster on a full moon. Soft shell crabs are doing nothing. Flounder are still being speared most everywhere. Take the old light and go after them.

The Coast Guard is checking to see that fishermen have a Coast Guard approved cushion when in a boat. Better get one before you go out. Safety first is the best policy anyway.

MR. AND MRS. RICHARD GARZIANO whose wedding was recently celebrated at Our Lady of the Gulf Catholic Church. Mrs. Garziano is the former Miss Martha Compton, daughter of Mr. and Mrs. Tony Compton of Bay St. Louis.

## Raspberry-Lohmann Wed In Clermont

Clermont Harbor United Methodist Church was the setting for the recent wedding uniting Miss Kathrine Raspberry and Larry Lohmann, both of New Orleans.

The bride is the daughter of Mr. and Mrs. Frank Raspberry and the groom is the son of Mr. and Mrs. Leon Lohmann Sr.

Rev. Harold Ryker performed the double ring ceremony before an altar decorated with white stock, roses and greenery.

Mrs. Ruth Ketchum, organist, played the traditional marches and a program of appropriate selections.

Given in marriage by her father, the bride wore a floor length candlelight peau de sole gown fashioned with an organza bodice. Her cathedral length veil of candlelight illusion was held by a bandeau of lilies of the valley and orange blossoms. She carried a white Bible topped with an old-fashioned nosegay of Shasta daisies and baby's breath.

Mrs. Leon Lohmann Jr. of New Orleans served as matron of honor and Miss Amy Raspberry, sister of the bride, was maid of honor.

They wore cerise floor length French voile dresses fashioned on Empire line with pink sashes and carried nosegays of pink roses and baby's breath.

### Little Theatre

Schedules Play

It might be called tempting Providence, but actor-director Edward Craig was willing to direct for the second time the Little Theatre's production of GENERATION, the ill-fated August, 1969, play by William Goodhart first scheduled for presentation four days after Camille. Effectively cancelled by the hurricane, GENERATION was put under wraps until now, and on August 27, 28, and 29 it will be shown at last with the same director in action and two members of the 1969 cast on stage. (The leading lady, however, had to be replaced; Jewell Tinsman, now married, is living in Alaska.)

A modern comedy written especially for young adults and the generation just ahead of them, the play was an outstanding success on Broadway and has been produced by many theatre groups across the country. Although admittedly suitable for children, it reflects certain of today's situation with a deft blend of comedy and daring realism, mirroring one aspect of the twentieth century rarely treated with such understanding and humor. Following plays like CAMELOT and YOU CAN'T TAKE IT WITH YOU, GENERATION will provide a distinct change of pace.

Produced by Pete Chapman with Chuck Taylor as technical director, the play will be the third regularly scheduled show of the 1970 season.

Mr. Donald Brennan of Clermont Harbor was best man and Frank Raspberry Jr. was groomsmen.

Following the ceremony a reception was held at the home of the groom's grandmother, Mrs. Mae Courge, Lakeshore.

Following their wedding trip the couple will make their home in New Orleans.

### YOUTH SAFETY SEMINAR

THIS WEEK INTRIGUED 77 REGISTERED RURAL YOUTHS. Seventy-seven rural youths of high school age returned to their homes Thursday after an intriguing week at the Mississippi Law Enforcement Academy getting an inside look at why accidents, deaths, and addictions happen.

An evaluation of the four-day session brought much praise and no criticism of the seminar and the manner in which the important topics were presented to each student, and it is felt that knowledge gained will be carried into all parts of the state in the weeks and months ahead to increase the value of this first safety seminar.

Greg Dossert, son of Mr. and Mrs. B.L. Dossert, represented Hancock County.

## Drew-Dekle Vows Exchanged In La.

Of interest in this area is the recent marriage of Miss Lynette Cecelia Drew, daughter of Mr. and Mrs. Guy Drew of Groton, La., and Waveland, Miss., and David Lee Dekle of Harvey, La., son of Mr. and Mrs. Benjamin Carroll Dekle of Martinsville, La.

Rev. Joseph Bourgeois performed the double ring ceremony at a Nuptial Mass at Christ the King Catholic church, Groton, before an altar banded with arrangements of white mums, gladioli and carnations flanked by baskets of white blossoms.

Given in marriage by her father, the bride wore a gown of white clouds of embroidered organza with a sheer voile and long sleeves. The wide cuffs were edged with Venice lace combined with pull through white satin ribbon. Her cathedral length train fell into a gentle sweep and a crown of floral plumes held her long misty veil in place.

She carried an old-fashioned bouquet of white roses and lilies of the valley centered with a white orchid. Her only jewelry was a string of pearls, an heirloom of her aunt, Mrs. Morris Bourgeois's family. Her 30-year old imported handkerchief was a gift from her aunt, Mrs. James Arnold of Bay St. Louis.

Miss Gullann Drew served her sister as maid of honor and a cousin Mrs. Jamie Brown was matron of honor. Bridesmaids were Misses Lynn Pugh, New Orleans, Jean Guldry, Algiers, and Donna Dekle, Houston, Texas, sister of the groom, Miss Mary Ann Drew, sister of the bride, was flower girl.

They wore pale yellow organza dresses trimmed with Alencon lace, featuring high necklines. The full bell sleeves gathered into tight cuffs. Their head pieces were small matching halo veils with daisies and they carried old fashioned bouquets of daisies.

Steven Dekle of Marksville, La., served his brother as best man. Ted Ware, Hainesville, La., Joseph Neu, Beaumont, Texas, James Sebastian, Opelousas, La. and Angelo Rini, Marrero, La. were groomsmen; Stephen Bourgeois, Memphis, Tenn. and Danny Dekle, Marksville, brother of the groom, ushered.

Tall baskets of white carnations, mums, gladioli and greenery decorated the River Room at the International Trade Mart

for the reception following the ceremony.

The bride's table, overlaid with a gold linen cloth, held the five-tiered cake trimmed with bunches of pale green grapes and white daisies. The top tier held an arrangement of fresh daisies.

Mrs. Morris Bourgeois, New Orleans, aunt of the bride, presided at the cake table.

For her wedding trip to Jamaica the bride wore a yellow plaid linen suit with white mums, gladioli and a white corsage.

The bride, a graduate of Dominican High School, is employed as an X-ray technician at Charity Hospital, New Orleans.

The groom, a graduate of Southwestern Louisiana College, is a pharmacist at Charity Hospital.

Following the wedding, Mr. and Mrs. Drew, who were married 25 years, removed their wedding vows with Rev. Bourgeois officiating.

at the Pearl River - Hancock  
Counties ASCS Office. Mail  
elections are set for the second  
week in September."I want to re-emphasize to  
farmers who are eligible to  
vote that nominating candidates  
by petition is of prime im-  
portance. If six or more eligi-  
ble candidates are nominated by  
petition in an ASC community,  
no other names will go on the  
ballot. In the past, the incum-  
bent community committee also  
had the privilege of making  
nominations. Now, a community  
committee may nominate only  
if fewer than six eligible candi-  
dates are nominated by peti-  
tion — and the committee may  
nominate only the number of  
candidates needed to make up  
a full slate of six nominees,"  
R. H. Bloodworth, County Exe-  
cutive Director of the Pearl  
River-Hancock Counties Agri-  
cultural Stabilization and Con-  
servation Committees, said.No special forms are re-  
quired for a petition — only  
a sheet of paper naming the  
candidate and the ASC com-  
munity. Signatures of at least  
six eligible voters in the com-  
munity are required on each  
petition. Only one candidate may  
be named on a petition but  
voters may sign as many peti-  
tions as they want.In general, to be eligible  
either to become a candidate or  
to vote, a person must have  
a farm interest in the com-  
munity and must be eligible to  
participate in one or more pro-  
grams administered by the  
county ASCS office. Full details  
on eligibility requirements for  
candidates and voters are avail-  
able at the county ASCS office,  
along with a list of known eligi-  
ble voters in the county.Each year eligible farmers  
nominate and elect ASC com-  
munity committees of three  
members and two alternates.  
The community committees  
elect persons to fill vacancies  
on their county ASC committee  
and also help administer farm  
programs such as farm acreage  
allotments and bases, and con-  
servation cost-sharing.

"They are the key people

the U.S. Department of Agri-  
culture relies upon for direct  
contact with producers. Com-  
munity committees help keep  
farmers informed of farm pro-  
gram provisions. They advise  
their county ASC committee on  
the farm situation in their com-  
munities and assist in admin-  
istering farm programs on thelocal level," the executive di-  
rector explained.  
"Our county ASC committee  
hopes that this year farmers  
will nominate by petition ever  
candidate whose name goes on  
a ballot," he concluded.IN GULFPORT
